MOLYBDENUM-99 TECHNOLOGICAL DEVELOPMENT**

SEPTEMBER 11-14, 2016

THE RITZ-CARLTON

ST. LOUIS, MISSOURI

Outlook for Future Mo-99 Supply

Michael J. Guastella MS, MBA

Council on Radionuclides and Radiopharmaceuticals, Inc.

500 North Capitol Street, NW; Suite 210, Washington, DC 20001-7407 – USA

ABSTRACT

The Outlook for Future Mo-99 Supply presentation will provide an update on the molybdenum-99 (Mo-99) supply chain and industry efforts to provide a reliable and sustainable supply of Mo-99 for the future. The information shared will be basic to the production and distribution of Mo-99 and its importance as the precursor to technetium-99m (Tc-99m), which continues to be the workhorse isotope in diagnostic nuclear medicine.
