# Recent Situation/Outlook

- NTP outage mid-Nov. 2017 – mid-February 2018
  - AIPES ERT intensive coordination and communication
  - LMI relied on IRE and ANSTO for supply; re-adjusted manufacturing schedules
- NTP now in normal operations after Feb-April transition period
- AIPES Security of Supply Working Group, February (Paris), telecon in early June
  - 2018 rest of year looks good; telecon in June
  - 2019 first draft calendar to be reviewed; finalized in summer
- Projects:
  - ANSTO/ANM hot commissioning underway
  - IRE LEU conversion awaited

# Lantheus Mo-99 Supply Chain

Emergency only (thru 3/2018)

# LEU TechneLite® Status

- Lantheus experienced some disruption of LEU TechneLite® manufacturing during the NTP outage
  - LEU supply has returned to normal
- ANM qualification and IRE conversion will enable full conversion to LEU generator production
- **Lantheus believes the \$10 add-on payment should be permanently integrated into HOPPS reimbursement**
